<面接試験の実際>

NS: Good morning. Could you tell me your name ?

I: My name is Ryuichi Ojima.

NS: Where do you come from ?

I: I come from Yokosuka in Kanagawa prefecture.

NS: I will ask you first question. Why are there so many English schools in Japan?

I: I think nowadays learning English is a trend in Japan. During a decade long economic recession, many Japanese companies are being merged by the foreign capitals and these companies CEOs are mostly foreigners. They demand that all company employees in these companies should speak or communicate in English such as coordination meeting or some events. Therefore, many companies are needed to hone the development of English fluency to meet their daily needs. That's why many language schools are need here.

NS: How about you? Your English is very good.

I: I learn English from U.S. servicemen stationed in Yokosuka.

NS: Second question. What do you think of the Athens Olympic Games?

I: I think Japanese team showed outstanding performances to the Japanese people, citizens. Especially, I would like to tell you the Judo team's performances. Nearly of all categories Japanese Judo athletes won medals. Judo is a national sport in Japan. It is honorable thing, because I teach Judo and some martial arts in school.

NS: Could you tell me who is the most impressive athlete in the Games ?

I: I would like to point out Uchishiba first. He is a 65kg Judo athlete. At first, he was not well recognized by the Japanese, or even Judo fans. However, he showed us outstanding performances in the game. I was so impressed and surprised by him. He won bouts all by Ippon.

NS: Last question. Could you explain to me "Undo Kai"?

I: Undo Kai is literally translated Athletic meet or Athlete meet. This event is held in autumn or some schools in spring. This event includes short distant relay and fun games. It is organized by school authority. Many school kids in Japan are looking forward to it when they are in school.
